

# Introduction to Databases, ITU, Fall 2004

Rasmus Pagh

September 9, 2004

## Exercises on September 17

You are unlikely to be able to do all the exercises in two hours. Therefore you are encouraged to prepare at home, and use the exercises for those parts you find difficult. You can load all available sample data into Oracle by running the commands in the file `all.rel` (in the `data` subdirectory of the course home page).

1. G UW 3.1.1.
2. G UW 6.1.4. Test your queries in Oracle on the sample data.
3. G UW 6.1.5. Test your answers on the relation `NullExample` in the sample data.
4. G UW 6.2.1. Test your queries in Oracle on the sample data.
5. G UW 6.2.3 c), e), and f). Test your queries in Oracle on the sample data.
6. G UW 6.5.2 a), b), and d). Test the updates in Oracle on the sample data .
7. G UW 6.6.2. Create the relations in Oracle.

## No hand-in for September 24
